PERIPHERAL ARTERY DISEASE (PAD)

PAD SYMPTOMS

- Weakness in legs
- Leg pain in the muscles while walking or during mild exercise, which goes away when you rest
- Cramps, tiredness or pain in your legs, thighs or buttocks
- Skin wounds or sores on your legs, feet, or toes that are slow to heal
- Foot or toe pain at rest that often disturbs your sleep

Remember that every patient is different, so make sure to discuss your questions and treatment options with your doctor.
